EDUCATION

PCET's Nutan Maharashtra Institute of Engineering and Technology, Pune 2021 – 2025
B.E in Computer Science and Engineering - CGPA – 8.18

N.E.S. Science College, Nanded 2019 – 2021
XII Maharashtra State Board – 92.33%

Pratibha Niketan Highschool, Nanded 2018 – 2019
X Maharashtra State Board – 83.40% -

TECHNICAL SKILLS

Languages: Java, SQL, JavaScript, HTML5, CSS3

Frameworks & Technologies: Spring Boot, Hibernate, React.js, Bootstrap, REST APIs

Databases: MySQL

Developer Tools: Git, GitHub, Postman, Eclipse, VS Code

Core Concepts: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS), Operating Systems, Basic System Design

PROJECTS

AutoVerse | Java, Spring Boot, Hibernate, MySQL, REST APIs

- Developed an automotive marketplace and garage management platform enabling users to buy, sell, rent, and modify cars while garages provide vehicle services and accessories.
- Implemented role-based access control (Customer, Garage Owner, Admin) with secure authentication and dashboards for managing listings, bookings, and services.
- Built features including car comparison, garage locator, service booking, car health reports, garage ranking, and a scalable Spring Boot backend with REST APIs for dynamic search and booking management.

Automated Timetable Generator | Python, Tkinter, SQLite

- Developed an Automated Timetable Generator using Python, Tkinter, and SQLite with secure role-based login for Admin and Faculty.
- Built dynamic modules to manage teachers, subjects, classes, and students, with automated timetable generation and conflict-free rescheduling when faculty availability changes.
- Implemented robust CRUD operations and a user-friendly Tkinter interface for efficient management of academic data.

Salon Appointment Booking System | Servlet, JSP, JDBC, MySQL | MVC Architecture

- Developed a web-based Salon Appointment Booking System using **Servlet, JSP, JDBC, and MySQL**, following the **MVC architecture** for clean and maintainable design.
- Implemented **multi-role login** (Admin, Therapist, Customer) with role-based access control.
- Built an appointment module for **booking, rescheduling, and cancellation** with real-time availability validation.
- Added Admin features to **manage services, therapists, pricing, and time slots**.
- Performed CRUD operations for users, services, and appointments with email notifications for booking confirmation.

INTERNSHIP

CODSOFT

Dec 2023 - Jan 2024

Web Development Intern

- During my internship, I gained valuable knowledge web technologies while collaborating with team members on various tasks. This experience enhanced my understanding of web development.

CERTIFICATIONS/ACHIEVEMENTS | [Links](#)

- Data Structure and Algorithms and java Fullstack - **Firstbit**.
- Solve 200+ DSA problems on Leet code.
- 4 stars in java on Hacker Rank.
